SANDEEP KUMAR MURMU

Software Engineer

sandeep.16murmu@gmail.com| +91-9572256574 | Hosa Road, Bengaluru

SUMMARY

Full-Stack and Backend Engineer with 4+ years of experience specializing in scalable backend architecture, microservices, and payment systems. Currently designing high-throughput payment processing workflows at Infosys Finacle (EdgeVerve). Proven track record in optimizing database performance, reducing payment failures by 80%, and building cost-efficient cloud infrastructure. Proficient in Node.js, NestJS, MERN stack, PostgreSQL, and AWS.

WORK EXPERIENCE

Infosys Finacle, Product Technical Analyst | Bengaluru **Jan 2026 - Present**

- **Payment Systems Engineering:** Design and build core backend flows for the Finacle OE-Payment platform using functional and technical specs.
- **System Modernization:** Enhance existing architectures to boost transaction reliability, performance, and scaling for global banks.
- **Technical Design:** Translate complex business requirements into scalable, high-throughput backend designs and workflows.

ALLEN Digital, Senior Software Engineer | Kota **Aug 2022 - Dec 2025**

- **E-Commerce & Scale:** Engineered scalable microservices and monolithic platforms, reducing payment failures by 80% via Razorpay and fraud detection.
- **Cost-Efficient VOD Platform:** Built a standalone VOD solution, cutting video delivery costs by 70% using AWS (EC2, S3, CDN) and custom HTML5 playback.
- **Security & Consoles:** Developed internal consoles (Inventory, Astra) using Node.js, NestJS, and MySQL with strict RBAC security.
- **CI/CD & Frontend:** Streamlined deployments with AWS CodePipeline/Docker and built responsive user interfaces using React.js.

Masai School, Full Stack Developer Trainee | Bengaluru (Remote) **Aug 2021 - Jul 2022**

- **Intensive Training:** Completed rigorous full-stack web development program focused on the MERN stack and modern API design principles.
- **Hands-On Projects:** Built practical web applications applying Node.js, Express.js, MongoDB, and MySQL to solve real-world development challenges.

EDUCATION

Electrical & Electronics Engineering **Aug 2016 - Sept 2020**

Sri Siddhartha Institute of Technology

KEY SKILLS

- JavaScript / TypeScript
- Node.js
- Express.js
- Redis
- RabbitMQ
- Kafka
- Loop-Back
- SQL
- MongoDB
- PostgreSQL
- Git / Github
- Docker
- Aws
- Jenkins
- Jira
- PostMan / Swagger
- NPM
